

ChoicePlus: Introducing a More Convenient E^vCheck.

About ChoicePlus

E^vCheck, administered by Ohio EPA, is more convenient — with ChoicePlus, offering more testing sites in the seven-county E^vCheck testing area!

ChoicePlus allows you to choose the easiest way to get your E^vCheck.

- 23 Full-Service E^vCheck stations.
- 40+ private inspection facilities.
- 18 self-service kiosks located outside many of the existing E^vCheck stations and 3 self-testing kiosks near a License Bureau, where you can conduct your own On-Board Diagnostic (OBD) test. Open 24 hours a day, 365 days a year!

Private Inspection Facilities

For more information, and hours of operation of the 40+ OBD-only private inspection facilities or self-service kiosks, call: **1-800-CAR-TEST**
Or visit our website at www.ohiocheck.info.

Self-Service Kiosk

Get an E^vCheck at any time of the day with one of our 21 self-service kiosks, located throughout Northeast Ohio. These easy-to-use kiosks walk you through the simple process of conducting your own OBD emissions test 24 hours a day, 365 days a year.

RapidScreen

The RapidScreen vans will travel throughout Northeast Ohio and remotely scan vehicles as they drive by to measure the vehicle's emissions. If your vehicle is really clean and has passed RapidScreen's emissions qualifications, you'll receive a notification in the mail. For the few very clean vehicles that pass this, they will not be required to go to an emissions testing facility. Visit www.ohiocheck.info for the schedule and locations of the vans.

Vehicles must be tested prior to registration in seven Ohio E^vCheck counties

Vehicles 10,000 lbs. or less GVWR between four and 25 years old are subject to emissions testing. Those with odd-number model years are tested in odd years (2025, 2027, etc.). Vehicles with even-number model years are tested in even years (2024, 2026, etc.). Also, vehicles powered by alternative fuels are exempt from testing (see www.ohiocheck.org). For example, a model year 2020 begins testing in 2024 and the oldest vehicle tested in 2024 would be a 2000. Motorists purchasing a used vehicle must obtain a valid E^vCheck certificate for registration. A passing certificate is good for 365 days and is transferable to a new owner. To protect yourself when purchasing a used vehicle four years old or older, be sure to ask for a passing E^vCheck certificate before purchasing the vehicle.

Vehicle test history

A vehicle's test history and unexpired test certificate numbers can be obtained at www.ohiocheck.info using the Vehicle Identification Number (VIN). If there is a valid test, a copy can be obtained at any one of the E^vCheck testing locations.

1-800-CAR-TEST
Or visit our website at www.ohiocheck.org or www.ohiocheck.info.

Watch the mail for notification

Motorists will receive a courtesy reminder of the required test at least 90 days prior to registration renewal. **However, motorists can get vehicles tested up to 365 days before your required registration renewal date.**

Those who may not be in Ohio when their registration is due should test early. For example, wintering in another state or students attending school.

Avoid the busiest times

Ohio E^vCheck Full-Service stations are usually less busy before 9 a.m. and after 4 p.m.

23 Full-Service Station Hours:

Monday-Friday – 8 a.m. to 6 p.m.,
Saturday – 8 a.m. to 1 p.m.,
Closed Sundays and select state holidays.

Call 1-800-CAR-TEST

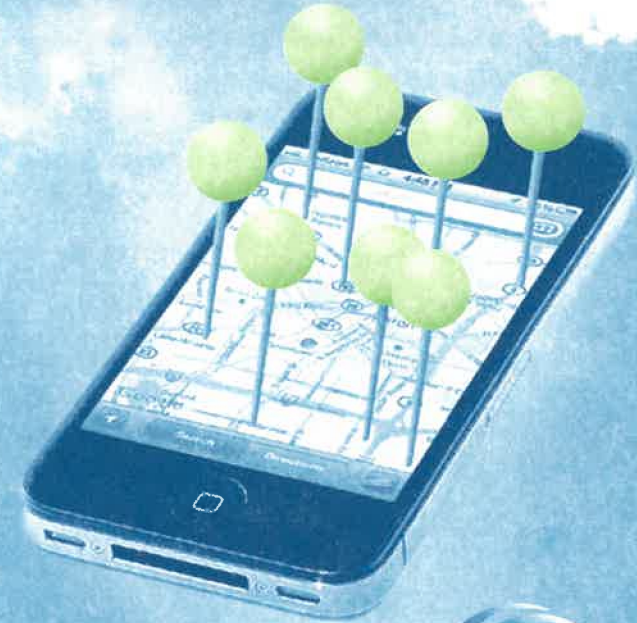

Ohio E^vCheck testing locations are served by a single customer service hotline. Operators are trained to assist you with your questions.

Every two years, all gasoline and diesel vehicles between 4 and 25 years old and 10,000 pounds or less gross vehicle weight rating, are required to be tested. Even year vehicles are tested in even years and odd year vehicles are tested in odd years. Testing can be done at the testing locations listed in this brochure.

IMPORTANT!

Determine which testing location(s) you should go to for convenience using this key.

- **FULL-SERVICE INSPECTION STATION**
Exemptions/extensions and waivers issued.
