

New Ohio Legislation HB 54

If your registration falls on June 29th or after, new vehicle exemptions are now for the first 6 years (vs 4) and includes non-plug-in hybrids for the first 7 years (vs 4). Plug-in hybrids are already permanently exempt. Vehicle testing begins for model years 2019 for gas and diesels and 2018 for non-plug-hybrids.

If your registration falls before June 29th, all vehicles still fall under the 4-year exemption with the initial test on model year 2021.
